

# ROCK AND ROLAND

## Kai Kals - Beebop in the house!

As you know, I am trusted with the Right to Create. I love all things creative and imaginative. My favourite thing to do is play the bass and listen to music. *Rock on!*

My favourite establishment in KidZania London is, of course, the Roland Music Studio! I have selected a few activities for you to complete at home. You are going to love them!

I can't wait to see how you get on.

Use pots and pans to create your own drum kit? With wooden spoons as the drumsticks, of course!

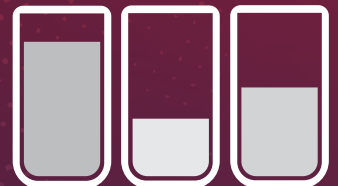

Stick varying length straws together to produce your own harmonica?

Stick them together on a piece of card!

Play around with different glasses of water to construct your own xylophone?

Try putting rice in a bottle to make your own maracas? Remember to screw the lid on tight!

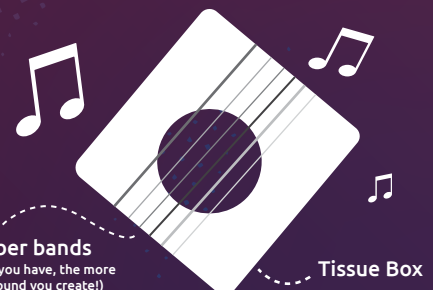

Ever wanted to start your own band? Or maybe you're more of a solo singer? Now is the perfect opportunity to get your home rocking by creating your very own instruments and staging the first ever KidZania Online ConZert!

If you've already got your hands on a guitar or piano, then brilliant! But if not, don't worry! We can make music wherever we are, using basic household items.

Take an empty tissue box and wrap rubber bands around it to build your own guitar?

Rubber bands  
(The more you have, the more unique sound you create!)

## Band Name

Now that you have made your instrument, you need a band name! Something that really says who you are. Some of my favourite bands are Queen, The Rolling Stones, Aerosmith

These are all Kool names that give the audience an idea about their style.

What band name represents you and the music you play with your brand new instrument?

## Album Cover

Kool, that's a ZaZ name! Now it's time to create your album artwork!

What is your first album called? Remember, this is your moment to introduce your band to the world, so make it count!

Once you have your name, you need to create your album artwork. Will it be bright, bold and colourful? Or dark, brooding and heavy? Make sure that the theme of your album artwork reflects both your album title and your new instrument!

Use this space to design your album

There are loads of ways we can make our own music using things other than our voice. Why not try re-creating your favourite songs? Or perhaps you could write some original tunes of your own?

Tag us at [@KidZaniaLondon](https://www.instagram.com/KidZaniaLondon) to get involved and see your music videos shared on the KidZania social pages for the world to enjoy!
