MISSION: HIGHLY ACIDIC SPY DEVICE

HIGH SECURITY |||||

Mission Length: 30 - 60 minutes

Mission suitable for: children aged 4-14.

Kai Kals. I'm Bekha! It's so ZaZ to meet you! There is nothing more important than you being you. Believe and you will achieve! I am trusted with the Right to Be.

One of my favourite, and the most important establishments in KidZania London is the Children's Intelligence Agency. The CIA keeps all our citiZens safe. In order to become a top-secret CIA agent, you must work and train hard. I'm going to teach you how you can do this at home!

<MISSION BRIEFING>

In a world of modern technology, it is getting much harder for agents to keep secrets. People eavesdrop on our conversations, hack into our systems when they're not supposed to and even read our texts!

As an official CIA Agent, you will need to keep messages top secret and hidden in plain sight. There are many different ways to do this, including with our Highly Acidic Spy Device.

This is a special formula of invisible ink, to ensure only trusted friends and other spies can decode any top-secret messages that need to be shared.

Your mission is to learn how to make your very own invisible ink using basic household materials.

Good luck, Agent

<EQUIPMENT>

You may or may not need:

- 🌟 Lemon
- 🌟 Water
- 🌟 A cotton bud
- 🌟 A medium sized book
- 🌟 White paper
- 🌟 A bowl and spoon
- 🌟 A lamp

<INSTRUCTIONS>

1. Squeeze the lemon juice into a bowl and use a spoon to mix it with a few drops of water.
2. Dip one end of the cotton bud into the mixture.
3. Balance the book on your head and rub your stomach three times.
4. Using the cotton bud, write your secret message on a piece of white paper.
5. Wait for the writing to go completely invisible.
6. If you want to show the secret message to someone, simply heat the paper by holding it close to the lamp!

Mission Complete ✨

Elite Agents: For an added layer of security, try writing your message in code (like a Caesar cipher), so it's double encrypted!
